WORK EXPERIENCE

Software Engineer iOS & Web apps

Amman, Jordan // 2018

Got my first iOS Application released to apple app store : C.Zone which included Online payment system, google maps and google firebase / RESTful API Integration. I am very adept at trouble shooting, debugging and optimizing application performance, focusing on code efficiency and smart coding principles such as MVC.

Also I try to keep my code clean and readable, so it would be easy to maintain.

Autocad drawings an IT Support for Sayyar y husseini & partner co.ltd.

Amman, Jordan // 2015-2017

autocad drawing specialist on engineering projects for electro-mechanical work, water circulation, HVAC. also performed network monitoring and video conference implementation.
